

DANIELE
VITI

OPEN SOURCE · CLOUD-NATIVE
· FULL-STACK

CONTACT

- Foligno (PG), Italy
- linkedin.com/in/danieleviti
- github.com/dnviti
- arsenalepam.com

CORE SKILLS

- .NET / C# / Blazor
- JavaScript / TypeScript
- Node.js / Express
- React
- Python
- SQL — Oracle / SQL Server / PostgreSQL
- Docker / Podman
- Kubernetes / GitOps (ArgoCD)
- Linux Administration
- VMware / Proxmox / OpenShift
- Networking & Security
- CI/CD & Git

CLAUDE CODE

- Daily driver for agentic coding
- Author of CodeClaw plugin
- AI-assisted development workflows
- MCP server integration expertise

LANGUAGES

- Italian — Native
- English — Professional

TOOLS & TECH

- Caddy
- Cilium
- Prisma
- Socket.IO
- guacd
- ssh2
- Argon2id
- JWT
- AES-256-GCM
- TOTP
- llama.cpp
- GitHub Actions
- CodeQL
- Compose
- ArgoCD
- Proxmox
- Apache APISIX
- Gitea
- Blazor
- .NET MAUI
- OpenID Connect

INTERESTS

- Cybersecurity & Pen Testing
- BG3 Modding (Lua / Osiris)
- AI & LLM Integration
- Photography & Printing
- Homelab & Self-Hosting

ACHIEVEMENTS

- Arctic Code Vault Contributor
- 82 GitHub Repositories
- CodeClaw — Claude Code Plugin
- Open-Source PAM Platform

OPERATING SYSTEMS

- Debian / Ubuntu
- RHEL / Fedora
- macOS
- Windows Server

Daniele Viti

OpenSource Solution Architect | Cloud-Native & DevOps Engineer | Full-Stack Developer

PROFESSIONAL SUMMARY

IT professional with 10+ years of experience spanning full-stack development, enterprise IT, and cloud-native infrastructure. Currently OpenSource Solution Architect at Var Group — one of Italy's leading IT integrators — building Kubernetes clusters, driving GitOps adoption, and architecting Hybrid-Cloud infrastructure for Business Continuity and Industrial IoT. Background as a senior .NET full-stack developer (Blazor, .NET 7, MAUI, OAuth2/OIDC, Oracle/SQL Server). Creator of Arsenale, an open-source PAM platform, and author of CodeClaw — a Claude Code plugin for structured task management and gated release pipelines. Runs a private datacenter for self-hosted services including AI inference.

EXPERIENCE

OpenSource Solution Architect

2024 – PRESENT

Var Group S.p.A. — Bologna, Italy · Remote

- Build and operate Kubernetes clusters; lead migration of legacy infrastructure to cloud-native using GitOps and containerisation.
- Architect complex Hybrid-Cloud infrastructure for Business Continuity against network faults — notably for Industrial IoT use cases.
- Configure Linux servers for containerised workloads with Docker and Podman.
- Configure API gateways with Api7 (Apache APISIX) under a GitOps model.
- Run R&D Datacenter and HPC for distributed infrastructure at the corporate datacenter.
- Deliver DevOps enablement & training on Proxmox, ArgoCD, Kubernetes, GitHub, GitLab, and Gitea; contribute back to community-based open source.

Creator & Lead Developer — Arsenale PAM

OPEN SOURCE

Open Source | arsenalepam.com | github.com/dnviti

- Architected a self-hosted PAM platform: SSH (ssh2), RDP (guacd), VNC + AES-256-GCM encrypted vault.
- Stack: Node.js/Express, React, PostgreSQL + Prisma, Socket.IO. Auth: JWT, TOTP, Argon2id.
- Multi-tenancy, drag-and-drop folders, multi-tab sessions, session recording.
- Developed entirely with Claude Code agentic workflows; competitive vs CyberArk, Azure Bastion, Keeper.
- Roadmap: AI log analysis, IP blacklist, MCP integration, Lua plugins, webhooks, SBOM (SPDX).

.NET Senior Developer — Full-Stack

2022 – 2023

OMA — Officine Meccaniche Aeronautiche · Foligno, Italy

- Built the internal integration platform (SLIM — Safe Light Information Management) from scratch on .NET 7 with Blazor, MVC APIs, and an Android app in MAUI.
- Developed an SSO authentication server with OpenID Connect (OAuth2 flows).
- Worked with Oracle and SQL Server databases.
- Managed the development stack (Git, CI/CD, Docker, Linux VMs).
- Coordinated internal and external developers (consultants, freelancers).

.NET Senior Full-Stack Developer

2019 – 2023

CommandWare · Freelance · Foligno, Italy (Hybrid)

- Independent senior full-stack .NET engagements for client projects, delivered alongside in-house roles.

Software Developer

2021 – 2022

Assist Informatica · Bastia Umbra, Italy

PLM Business Consultant

2020 – 2021

K2innovation · Turin, Italy

- Aras Innovator PLM configuration and development.

Digital Skills Teacher — Docente di Potenziamento

2019 – 2021

European Grants International Academy · Freelance · Foligno, Italy

- Taught Scratch programming to middle-school students.
- Led a hands-on lab developing practical digital skills in multimedia content creation (PON Massa Martana 2019).

IT Specialist

2015 – 2019

OMA — Officine Meccaniche Aeronautiche · Foligno, Italy

- Installed and configured Linux/Windows application virtual machines.
- Developed corporate ERP modules and supporting tools across multiple languages.
- Managed software development and integration projects; authored technical and functional specifications.
- Drove continuous improvement across IT operations.

IT Intern

2015

OMA — Officine Meccaniche Aeronautiche · Foligno, Italy

CLAUDE CODE & AI-ASSISTED DEVELOPMENT

CodeClaw

Claude Code Plugin

Open-source Claude Code plugin for structured task & idea management with a gated release pipeline, parallel sub-agent orchestration, Git worktrees, GitHub/GitLab Issues integration, agentic fleet CI/CD, and Docker tagging strategy. MIT licensed.

github.com/dnviti/codeclaw

- Claude Code is the primary development environment for all personal and open-source projects.
- Built CodeClaw plugin: slash-command skills, gated releases, per-PR sub-agents, multi-provider agentic fleet.
- MCP server integration expertise; prompt engineering for structured AI-driven development workflows.
- Uses Claude Code for infrastructure automation, code review, security analysis, and documentation.

EDUCATION

ITS Umbria Smart Academy

Higher Technical Education (ITS) — IT & Digital Technologies | Foligno, Italy

OTHER PROJECTS & OPEN SOURCE

- Arsenale PAM** — Self-hosted PAM platform — 82 repos on GitHub. Arctic Code Vault Contributor.
- Arsenale AI Chatbot** — Self-hosted LLM (Qwen 3.5 0.8B / llama.cpp) + RAG, private datacenter infrastructure.
- Infra Tooling** — Docker/iptables networking, Caddy TLS reverse proxy, cloud automation scripts.
- Pen Testing Suite** — OWASP-based penetration testing prompts & frameworks for Arsenale (CVSS v3.1, CWE).

SECURITY EXPERTISE

- OWASP Top 10
- CVSS v3.1
- CWE
- Pen Testing
- JWT / TOTP / MFA
- AES-256-GCM
- Argon2id
- TLS / mTLS
- Zero Trust
- Vault Encryption

INFRASTRUCTURE & HOMELAB

- Private Datacenter
- Self-Hosted LLM
- Docker Compose
- Caddy Reverse Proxy
- Hetzner Cloud
- Debian VPS
- iptables
- systemd
- GRUB / LVM / BTRFS
- Proxmox
- OpenShift PVC
- Homelab
- DNS / ACME

METHODOLOGIES & PRACTICES

- Agile / Kanban
- GitFlow
- Code Review
- Threat Modeling
- IaC
- GitOps
- Hybrid Cloud
- Containerization
- CI/CD Pipelines
- 12-Factor Apps
- API-First Design
- Multi-Tenancy
- Event-Driven
- Microservices
- REST / WebSocket

AI & LLM STACK

- Claude Code
- Claude API
- Anthropic MCP
- Prompt Engineering
- llama.cpp
- Qwen Models
- RAG Pipelines
- ChromaDB
- SQLite-vec
- LLM Self-Hosting

SOFT SKILLS & APPROACH

- Problem solver with a security-first, automation-driven mindset.
- Strong cross-team collaboration; bridge between dev, ops, and security.
- Continuous learner — actively explores AI/LLM tooling, emerging frameworks, and open-source ecosystems.
- Self-starter: built and maintains production-grade open-source projects end-to-end.
- Effective technical communicator — documentation, architecture diagrams, and stakeholder reporting.
- Open-source advocate — contributes to community-driven projects and knowledge sharing.
